

Vertical Contact Toaster

Model: VCT-1000

Options: Butter Wheel,
Bun Feeder

VCT-1000

**VCT-1000 with
butter wheel**

**VCT-1000 with
bun feeder**

The Vertical Contact Toaster model VCT-1000 is designed for contact toasting of buns.

The toaster design allows the operator to place buns on both sides of the heated platen at the same time. Buns are placed into the top of the toaster, and uniform, golden brown, warm buns are then retrieved at the bottom of the toaster.

Features:

- Bun Components – Heel, Crown, and Club Sections – are Toasted With One Setting.
- Easy-to-Adjust Dial Thermostat
- Space Saving Vertical Design
- Continuously Moving Conveyor Allows for Immediate Toasting
- 10- to 28-Second Pass-Through Time Available
