

Vertical Contact Toaster Model: VCT-2000

VCT-2000

The Vertical Contact Toaster Model VCT-2000 is designed for contact toasting of buns. The toaster design allows the operator to place buns on both sides of the heated platen at the same time. Buns are placed into the top of the toaster and uniform, golden brown, warm buns are then retrieved at the base of the toaster.

Your Vertical Contact Toaster Model VCT-2000 is manufactured from the finest materials available and is assembled to Roundup's strict quality standards. This unit has been tested at the factory to ensure dependable trouble-free operation.

Features:

- Double-Sided Platen Toasts On Two Sides for Twice the Capacity, Compared to Conventional Single-sided Toasters
- Staggered Bun Delivery Helps Keep Sandwiches Hot
- PID Electronic Solid State Temperature Controller
- 7-12 Second Pass Through Time
